

Fresh Air Indoors WITH OZONE GENERATORS

“Destroys all unpleasant organic odours”

OZONE GENERATORS

DESIGNED FOR FIXED AND PORTABLE APPLICATIONS

For the removal of unwanted odours in:

-  *Toilets and washrooms*
-  *Nursing homes*
-  *Corridors*
-  *Garbage rooms*
-  *Hospital sluice rooms*
-  *Hotels for smoke odours in bedrooms and conference facilities*

“With Ozone, unpleasant smells can be a thing of the past”

There are some places where up until now, it seemed we had little choice but to put up with unpleasant smells.

We now have a NATURAL SOLUTION.

In the modern environment we tend to close ourselves off from the natural freshness we experience outside. Ozone generators have been designed to put a small trace element of ozone into the environment to reproduce this natural freshness.

Ozone or “activated oxygen” is produced by bringing the air we breathe into contact with a high voltage electrical discharge. An ozone generator mimics nature by creating a natural freshness often associated with electrified air after a thunderstorm.

The AIRMAID 2300 Series

"Destroys all unpleasant organic odours"

Features:

- 🦋 Designed to treat areas up to 100m³.
- 🦋 Tough white ABS plastic with self locking cover and security key lock.
