

Fresh Air Indoors WITH OZONE GENERATORS

“Destroys all unpleasant organic odours”

OZONE GENERATORS

DESIGNED FOR FIXED AND PORTABLE APPLICATIONS

For use in:

-  *Toilets and washrooms*
-  *Nursing homes*
-  *Corridors*
-  *Garbage rooms*
-  *Hospital sluice rooms*
-  *Hotels for smoke odours in bedrooms and conference facilities*

“With Ozone, unpleasant smells can be a thing of the past”

There are some places where up until now, it seemed we had little choice but to put up with unpleasant smells.

We now have a NATURAL SOLUTION.

In the modern environment we tend to close ourselves off from the natural freshness we experience outside. Ozone generators have been designed to put a small trace element of ozone into the environment to reproduce this natural freshness.

Ozone or “activated oxygen” is produced by bringing the air we breathe into contact with a high voltage electrical discharge. An ozone generator mimics nature by creating a natural freshness often associated with electrified air after a thunderstorm.

The AIRMAID 2300 Series

"Destroys all unpleasant organic odours"

Features:

- ✦ 8 different models available, providing the right options for every application.
- ✦ Tough white flame retardant ABS plastic case for a cleaner and sharper image.
- ✦ High frequency electronic circuitry for optimum performance and extended service life.
- ✦ Automatic power cut off to ensure safe and easy servicing.
- ✦ Self-locking cover with security key lock.
- ✦ Casing cover permanently attached with position lock to facilitate hands free servicing. Less than 4 minutes typical service time.
- ✦ Ozone output fully adjustable by user to suit room size and application.
- ✦ Control options available:
 - 1) *Continuous running*
 - 2) *Day/night switch*
 - 3) *Fully automatic digital control*
- ✦ Ozone Output Options: 40mg/hr. 70 mg/hr and Dual Range, all fully adjustable.
- ✦ Ozone concentration test strips available to ensure natural levels of ozone are reproduced in each environment.
- ✦ Suitable for portable and wall mountable applications.
- ✦ Simple installation and maintenance instructions.

Special features:

Air sanitation option . . . kills up to 95% of airborne bacteria and viruses

Overall Dimensions: L 210mm x W 142mm x D 75mm

Electrical Supply: 220 - 240V, 1 Ph, 50/60 Hz, 12W
110V
