

Fresh Air Indoors WITH OZONE GENERATORS

“Destroys all unpleasant organic odours”

CORONA DISCHARGE

OZONE GENERATORS

DESIGNED FOR FIXED AND PORTABLE APPLICATIONS

For the removal of odours created from:

-  *Tobacco Odours*
-  *Plant Odours*
-  *Pet Odours*
-  *Garbage Odours*
-  *Damp Basements*
-  *Cooking Smells*

“With Ozone, unpleasant smells can be a thing of the past”

There are some places where up until now, it seemed we had little choice but to put up with unpleasant smells.

We now have a NATURAL SOLUTION.

In the modern environment we tend to close ourselves off from the natural freshness we experience outside. Ozone generators have been designed to put a small trace element of ozone into the environment to reproduce this natural freshness.

Ozone or “activated oxygen” is produced by bringing the air we breathe into contact with a high voltage electrical discharge. An ozone generator mimics nature by creating a natural freshness often associated with electrified air after a thunderstorm.

The AIRMAID 2300 Series

"Destroys all unpleasant organic odours"

Advantages of Corona Discharge versus UV Ozone Generator

- Save up to £60 per annum on running costs when compared to similar UV products.
- Annual replacement parts save up to £20 per annum.
- Easy to operate and service takes less than 5 minutes.
- No disposal issues of UV bulbs.
- No hazardous UV light issues.
- Variable output to ensure it operates within health and safety guidelines.
- Integral timer to operate it when you want it.
- Looks better and is more discreet.

Features:

Air sanitation option . . . kills up to 95% of airborne bacteria and viruses

Overall Dimensions: L 210mm x W 142mm x D 75mm

Electrical Supply: 220 - 240V, 1 Ph, 50/60 Hz, 12W 110V

Manufactured by & available from:

OZONE INDUSTRIES LIMITED
Unit 3, Regents Court, South Way, Walworth Business Park,
Andover, Hampshire, SP10 5NX.
